Unity & Game Development

Chenwie Arroie Asang

Game Developer, Software Engineer and Microsoft Specialist

A certified and dedicated computer specialist trained to excel under challenging situations and to be calm under pressure. Seeking to create ground breaking games of multiple genres that tells inspiring tales of African stories and lore, on various platforms including mobile that can be enjoyed by the entirety of Africa and potentially worldwide; while also passing the knowledge on skills I've gained to assist the next generation of developers in pursuit of their dreams.
